<sup>1</sup> Caution should be exercised when interpreting these statistics. They represent a snapshot in time as at year-end for each year. Coding is subject to change, for it relates to investigations that are ongoing. For example, through investigation it may be determined that an allegation is unfounded or that the classification must be recoded from “Criminal Harassment” to “Harassing Phone Calls.” I.e., to enable a more direct comparison with 2017, statistical coding for the prior four years was not reviewed/updated.
